

hellow friends,,,

This is Ajeeth.M.

Let me share the pattern of the test for the recruitment process for alcatel R&D Chennai.

TEST PATTERN

basically there were two part. each part is for 1.30 hours so totally the test is for three hour.

Part1:(Time duration:1:30 hrs)

total no of questions:120

technical questions:60questions

(Tips: be prepared with some questions from computer communication network, LINUX and then Microprocessors)

aptitude questions:60questions

(Tips:RS.Agarwal is more than enough for this part)

Part 2:(Time duration:1.30 hrs)

total no of questions:90questions

questions on C:30

(Tips:Let us C by yashwant kanitkar, pointers in C by yashwant kanitkar, Test your C skills by yashwant kanitkar)

questions on C++:30 questions

(Tips:Let US C++ yashwant kanitkar)

questions on JAVA:30 questions

(Tips:complete reference on JAVA)

that is it friends,,

Im waiting for my result..

i dont know the other part of the procedure...

i will share that experience later.
