

Hi guys!

Recently I sat for Aztec. Pretty cool company! The good thing about the company since they deal with all kind of technologies since the name A to Z Technology you get a great exposure.

The 4 rounds are

APTITUDE

GD

TECH

HR

The apti had 4 parts: english, maths, analytical, pie charts and a program.

English :OK

Maths : Easy

analytical: pretty tough

Pie charts: OK

Program :In my case was to print 1

12

123

1234

.....

123456789

GD was dress code for girls in colleges

The invigilator was quite cool...He coordinated the whole stuff.

Tech was nice. They asked me many HR questions before going to the tech stuff.

Tech was mainly around Java since i mentioned them i am interested in Java. Other than that they asked me many Software engineering questions .

HR was very nice and friendly. Some hr questions and a puzzle.

So i hope to meet you at aztec.

Good luck and keep programming. ....Anirban Dutta.
