

CTS PAPER ON 10th JUNE

hi all !

for cognizant in our college 769 appeared for test had 3 sections and 451 were selected for next round means for interview....out of which 237 were finally selected and i m one of the lucky person.

first time i appeared for any company and i want to share my experience wid u all and hope u ll also get benefit from my experience as i got from this website....

there were 3 sections in test each was having its own time....

1) Analytical(25 questions in 25 min) -problems on cube,ven diag,series,coding,some simultaneous eqns n find variables...easy except ven diag

2) Verbal(25 questions in 25 mins)- 2 passages each of 5 qns ,sentence correction(correct,incorrect),jumble d sentences in correct order...was only tough

3) Non verbal(20 questions in 20 min)-odd fig out.....was very easy section.

u need to manage ur time in hall... dont waste ur precious time on lengthy one even if u know...first u solve dat can be solved in few seconds then u go for rest. there was no -ve marking so u can make ur guesses:)

verbal section was tooo lengthy so i could not c a single line of two passages but tried for others cut off goes very low in verbal section so need not 2 worry.... rest section was very easy..... u need to practice for cubes,ven diags....go through any good book... R.S.AGRAWAL u can follow

problems:

1) one cube is divided into 343 small cubes and assmblled again as a one cube and now it is painted

how many cubes havin 0 face painted(ans....125)

how many cubes havin 1 face painted(ans....150)

how many cubes havin 2 face painted(ans....60)

how many 3 face painted(ans..8)

how many more dan 2 face painted(ans..8)

2)based on codin....in a system 1 is represented by\$ and 0 by * then find the values of followings in d same system.....was very easy based on binary to decimal conversions....totally 5 qns on this .
