

2008 Geometric Placement Paper - 2

GEOMETRIC PAPER ON 9th FEBRUARY AT BHOPAL

Hi Frenz!!!

I m ADITYA SINGH YADAV, student of LNCT college BHOPAL ,CSE 3rd year. I' ve been placed in GEOMETRIC SOFTWARES in the open campuz drive held at BANSAL college, BHOPAL on 9th feb'08. Eligibility criteria asked was 65% in 10th,12th n BE(aggre.)

Whole campus procedure comprised of 2 rounds-

1. Written test

2. Technical cum HR interview.

Written test consisted of 2 sections;

Section 1(General Intelligence test),it contained 40 quec. to be completed in 15 min. wid -ve markin of .25.Hey guyz,,don't get panic,quec. were very easy.Only thing iz 2 maintain a gud speed n track of time. some of the quec. i remember were:-

=> 0 1 2 4 10 ? (ans-42 hint- $\{0*1\}+2,\{1*2\}+2$ n so on...)

=> 2 4 12 48 240 ? (ans-1440;hint-go on multiplin given nos. by 2,3,4,5,6)

=> 9 12 11 14 13 ? 15(ans-16, alternatively add 3 n subtract 1)

=> Pick the odd one out-

a) voilet b) green c) black d) red (ans-c,,black iz not in VIBGYOR)

=> 4-5 synonyms n antonyms were also asked like dat of CAJOLE,LATENT,AMBIGUITYetc.

=> 1 quec frm blood relation.

=> The above fig is square. In which 2 lines AB & AC are inscribed as shown. AB & AC are of 10cms. Find the area of the square.

=> If a brick is subjected to two equal and exactly opposite force then wht will happen to brick?

=> n:u:: m: __

=> If a suitcase is thrown by a man from a boat into sea will the water level rise?

=> Scissor:cloth :: axe: ? (ans-wood)

and there were some aptitude quec. also...

Section 2(technical test) included 20 quec. n time alloted waz 30 min. -ve markin waz of .50.

Quec. in this section were based on basic geometrical conceptz n some situation based n LR quec. too. Quec. asked in both da sectionz were mixed frm diff. topicz,,there waz no definate patten.

Refer foll. chapterz of RS AGRAWAL 4 both da sectionz---

-> Ratio n Proportion.

-> Odd man out n Series.

-> Time n Work.

-> Time n Distance.

-> Area.

->Statement n Conduision(verbal n non-verbal).

I accurately solved 34 ques. n 14 ques. in sectionz 1 n 2 resp.
guys just remember only mark those answers of which you are completely sure of as -ve marking & time will be your biggest enemy in the written.

Only 24 students got selected for the interview. Some were interviewed on the same day n rest on the next day (including me)

I thank God for that as I was exhausted very much. I was the 2nd person to be interviewed.

My interview lasted for 45 min.

Ques. fired on me were:-

HR: come in.

Me: Good morning sir.

HR: how are you feeling?

Me: absolutely fine n comfortable sir.

HR: tell me about yourself.

Me: I told about myself for around 7-8 min. non stop; included my educational background, technical exposure, strengths, weakness, hobbies, aim in life, etc, etc, etc.... (he was very impressed)

HR: Aditya you mentioned you are an efficient team worker n team leader, could you cite examples?

Me: answered quite effectively giving 3 eg.

HR: what is virtual memory & its use?

Me: told

HR: what is linked list, its advantage over array?

Me: told

HR: explain arrays & its advantage over linked list?

Me: explained.

HR: what is 16 bit n 32 bit microprocessor?

Me: answered

HR: Do you want to ask something from me?

Me: I asked 3 ques. they were on training duration, other technical skills to get myself equipped before joining your company & my feedback.

He told that I have excellent communication skills n that is an added advantage for me apart from my technical exposure....

Frenz,,, remember 1 thing... apart from your technical exposure, improvise a lot on your communication skills as you can really shine you out of the crowd. also load yourself with great confidence n +ve attitude....

Finally 9 students got selected. I must surely say that my selection was possible only due to God's Grace n heartfelt wishes of my family n frenz.....

BEST OF LUCK GUYS !!!!!!!
