**120 MINUTES** 

1.	Continuous substitutability of capital and labour is shown by								
	A)	Smooth convex isoquant	B)	Kinked isoquant					
	C)	Linear isoquant	D)	None of these					
2.	Input	output analysis was put forwa	rd by						
	A)	Leon Walras	B)	Keynes					
	C)	Wassiley Leontief	D)	Marshall					
3.	If the	income elasticity of demand i	s greate	er than 1, the commodity is					
	A)	Luxury	B)	Inferior					
	C)	Non related good	D)	Necessity					
4.	Cross	elasticity of a complementary	good i	is					
	A)	Positive	B)	Negative					
	C)	Zero	D)	None of these					
5.	Slope of total product curve measures								
	A)	Marginal product	B)	Total product					
	C)	Average product	D)	MRTS					
6.	that			lat stretch which reflects the fact which allows flexibility					
	A)		B)	Marginal capacity					
	C)	Reserve capacity	D)	None of these					
7.	The d A) B) C) D)	lemand curve becomes the ma First degree price discriming Second degree price discriming Third degree price discriming None of the above	ation nination	evenue curve of the monopolist under					
8.	The Theory of Monopolistic Competition is authored by								
	A)	Joan Robinson	B)	E.Chamberlin					
	C)	Augustin Cournot	D)	Sweezy					
9.	elasti	apper section of a kinked dema city than the lower part.		-					
	A)	Higher	B)	Lower					
	C)	Equal	D)	None of these					
10.	A) B) C)		nue are than pr price el	not the same rice asticity of demand equals one.					
	D)	Marginal revenue decreases	with in	ncreases in output					

11.	The L	erner Index equals								
	A)	(P-MC)/P	B)	P/(MC-P)						
	C)	(MC-P)/MC	D)	MC/(MC-P)						
12.	_	tive network externality in whee good	nich a co	onsumer wishes to own an expensive or						
	A)	Snob effect	B)	Bandwagon effect						
	C)	Ratchet effect	D)	None of these						
13.	When A) B) C) D)	Different commodity prices Same commodity prices and	s, but di s, but sa d same a	afferent amounts of money expenditure me amount of money expenditure amount of money expenditure rices and different amounts of money						
14.	The PA) B) C) D)	<ul> <li>The lack of co-operation among firms in a monopolistic market</li> <li>The lack of co-operation between a monopoly and its customers</li> <li>Why in an oligopoly market, co-operation is difficult to achieve even when it is mutually beneficial.</li> </ul>								
15.	Which A) B) C) D)	It was pioneered by American economist Paul Samuelson It establishes the law of demand without indifference curves It proves the existence of indifference curves It is based on cardinal measurement of utility								
16.	When negative income effect is greater than substitution effect, it is the case of which one of the following?									
	A)	Giffen good	B)	Inferior good						
	,	Normal good	D)	Luxury good						
17.	Q(D) functi	m has a certain initial equilibr = 100 – 4P and supply function is shifted to 170 – 4P, whatew equilibrium price?  10 and 20 5 and 15	n is 30+	3P. If the firm's demand						
	C)	3 and 13	D)	/ and 1 /						
18.		rship?  Must be a large firm  Must have control over a la	rge port	condition for barometric price  tion of the market the prevailing market conditions						

19.	The En	ngel curve for a giffen good is Negatively sloped Vertical	B) D)	Positively sloped Horizontal				
20.		cus of general equilibrium por ommodity economy is called The consumption contract curve The production contract curve The social welfare function The transformation curve	ırve	exchange in a two individual				
21.	money	ding to a higher nominal interval balances and hence people as frequently. This cost is termed Shoe leather cost	re requi					
	C)	Tax cost	D)	None of these				
22.		reconomic impact of one firm' n's products is called Aggregate supply externality Aggregate demand externality Aggregate income externality None of these	ty	adjustment on the demand for				
23.	Accordinflation		ney equ	ation, an increase incauses				
	A)	Money supply	B)	Money demand				
	C)	Rate of interest	D)	None of these				
24.		orizontal parallel section of the indicates that There is no speculative dema There is small but limited de Monetary policy ineffective Monetary policy becomes ef	and for mand f	money				
25.	When investment is negatively related to the rate of interest, equilibrium output in the goods market  A) Is unrelated to the rate of interest  B) Is inversely related to the rate of interest  C) Is positively related to the rate of interest  D) falls as the rate of interest decreases							
26.		ope of IS curve w terest sensitive Increases Remains unchanged	hen inv B) D)	Decreases None of these				

27.	A rapid and decisive reduction in growth rate of money supply aimed at reducing the rate of inflation is called									
	A)	Cold turkey	B)	Gradualism						
	C)	Reflation	D)	None of these						
28.	Okun'	s law states that output falls	s by 2.5%	6 for each percentage poin	t					
	A)	Inflation	B)	Unemployment						
	C)	Productivity	D)	Investment						
29.	-	roposition that changes in the y by changes in tax collections as Seignorage	-							
	C)	Purchasing power parity	D)	Fiscal accommodation						
30.	Tende	ncy of inflation and nomina	1 interest	rate to move together is ca	alled					
	A)	Pigou effect	B)	Fisher effect						
	C)	Keynes effect	D)	Real balance effect						
31.	Relation A) C)	ve Income Hypothesis was p James Duessenberry Milton Friedman	oropound B) D)	led by Keynes Modiglani						
32.	When A)	marginal propensity to cons 1 B) 5	sume is 0	0.5, the value of multiplier C) 10 D						
33.	Rational Expectations Hypothesis was propounded by									
	A)	Lucas	B)	Smith						
	C)	Marx	D)	Schumpeter						
34.	GDP (	at factor cost equals								
<i>3</i> 4.	A)	GNP at market price+ indi	rect taxe	s- subsidies						
	B)	GNP at market price + Dir	ect taxes							
	C)	GDP at market price-indire								
	D)	None of the above								
35.	Efficie	ency wage model is a feature	e of							
55.	A)	New keynesian school	B)	Monetarism						
	C)	New Classical school	D)	Supply side economics						
	C)	New Classical School	D)	Supply side economics						
36.		ployment in Keynes model		=						
	A)	Demand deficiency	B)	Supply deficiency						
	C)	Demand sufficiency	D)	Supply sufficiency						
37.	Nation	nal Income is								
	A)	Per capita at factor cost	B)	NDP at factor cost						
	C)	GDP at market price	D)	GNP at market price						

38.	Which of the variables shift the classical aggregate demand curve?										
	A)	An increase in g		spending	g						
	B)	Decrease in taxe	es								
	C)	An increase in a	utonomous	investm	ent exp	enditure					
	D)	An increase in the	he money sto	ock							
39.	An increase in marginal propensity to import										
	<b>A</b> )	,									
	B)	,									
	C)	Decreases the va		nultiplie	r						
	D)	None of the abo	ve								
40.	In a two sector model, consumption is 40+0.90Y and investment is 50, equilibrium output is										
	A)	-	3) 500		C)	400	D)	90			
41.	Tho	haracteristic featu	ro(s) of a go	ad actin	antor						
41.	A)	Best	1C(s) 01 a g0	B)	Linea	ar.					
	C)	Unbiased		D)		f these					
	C)	Onolased		D)	All U	i these					
42.		bility is associated	d with	<b>D</b> )	**						
	A)	Certain events		B)		rtain events					
	C)	Impossible even	its	D)	None	of these					
43.	Suppose in a binomial distribution, n=number of trials, p=probability of										
	succe	ss and q=probabil	ity of failure	, the me	ean of t	oinomial distri	bution is				
	A)	npq E	B) np		C)	pq	D)	nq			
44.	The coefficient of skewness of normal distribution is										
	A)	3		B)	Less	than 3					
	C)	More than 3		D)	0						
45.	The level of significance is the probability of										
	A)	Type 1 error	o is the proc	B)		2 error					
	C)	Power of a test		D)		of these					
	٠,	10110101000		2)	1,0110						
46.	_	ercentage of total		plained	-	lanatory varial		2			
	A)	f E	3) z		C)	t	D)	$R^2$			
47.	t test	is used for									
	A)	Small sample		B)	Large	e sample					
	C)	Both		D)	None	of these					
48.	The a	lgebraic sum of th	e deviations	of varie	ous val	ues from the		= 0			
	A)	Co-efficient of v		B)		metic mean					
	C)	Variance		Ď)		of these					

49.	Wher	the observed	and exp	ected fro	equenc			de, $\chi^2$ wi	ll be			
	A)	Less than 1			B)	Great	ter than 1					
	C)	Zero			D)	One						
50.	The r	nethod of mak	ing rese	arch infe	erence	from ge	neral to partic	ular is				
	A)	Deductive			B)	Induc	etive					
	C)	Both			D)	None	None of these					
51.	The v	intercept of a	line is a	a point w	hen							
	A)	y is 0		1	B)	y is n	egative					
	C)	x is 0			D)	-	egative					
52.	Mode	e can be obtain	ed by									
	A)	3Mean-2Me	-		B)	1Mea	ın-2Median					
	C)	3Median-3N			D)		lian-2Mean					
	****						<b>a</b>					
53.		2 coins are to			e proba	•						
	A)	1/4	B)	1/2		C)	4/2	D)	1			
54.	Deriv	ative of log x	is									
	A)	1	B)	0		C)	1/5	D)	1/x			
55.	If the	marginal reve	nue is 2	5 and th	e elasti	city of	demand with r	espect to	)			
	price	is 2, find the av	verage r	evenue.								
	A)	25	B)	50		C)	12.5	D)	27			
56.			of a me	atriv ic tl	ne cum	of the e	elements of the	leading				
50.	diago		· OI a III	ati ix is ti	ic suiii	or the c	icinchis of the	lcaumg				
	A)	Transpose o	f a matr	ix	B)	Trace	e of a matrix					
	C)	Order of a matrix			D)	None	of these					
57.	As pe	As per economic survey 2011-12, agriculture including allied										
	activities accounted for of GDP in 2010-11, at 2004-05											
	prices	S.										
	A)	13.9%	B)	12.5%	ó	C)	15.3%	D)	14.5%			
58.	Acco	rding to Censu	ıs of Ind	lia 2011,	the lite	eracy ra	te of India is					
	A)	65.73%	B)	64.83		C)	74.04%	D)	75.05%			
59.	As ne	r the Human I	Develon	ment Re	port 20	)11 the	HDI rank of I	ndia is				
	A)	123	B)	134	F	C)	157	D)	127			
60.	R N	Malhotra com	mittee o	ave reco	omend	ations i	n the field of					
00.	A)	Agricultural	_	,4 10 1000	B)		industries					
	C)	Insurance se			D)		ing sector					
61	NIAD	ADD was asta	hlighad	on the	200	andatia	as of					
61.		ARD was esta						ittaa				
	A)	Public Acco					raman Comm	nitee				

62.	The Competition Commission of India became operational with effect from the										
	year A)	2009	B)	2008		C)	2010	D)	2007		
63.	The S	States which	do not ha	ve RRB'	S						
	A)	Goa and S	ikkim		B)	Assa	m and Kerala	l			
	C)	Bihar and	Rajasthan	1	D)	Mizo	ram and Mar	nipur			
64.		_		which is			ılous State in	India?			
	A)	Maharasht			B)	Bihaı					
	C)	Uttar Prad	esh		D)	West	Bengal				
65.		Grey revoluti	on is asso	ciated w							
	A)	Oil seeds			B)	Fertil					
	C)	Petroleum			D)	Meat	\Tomato				
66.			stry in tot			in India	increased fr	om 16.2%	in		
	A)	28.5%	B)	25.6%	)	C)	19.4%	D)	21.9%		
67.		er Indian Eco		rvey 201	1-12, 1	fiscal de	eficit as a per	centage o	f GDP		
	A)	5.6%	B)	6.5%		C)	4.5%	D)	3.5%		
68.	The p	er capita inc Rs 59716	ome of K	erala dur	ing 20	08-09 a Rs 80	t current pric	es is			
	C)	Rs 47900			D)	Rs 67					
	C)	105 17700			D)	100	710				
69.	The primary sector's contribution to SDP of Kerala at factor cost during 2008-09 at current prices										
	A)	15.99%	B)	20.809	%	C)	24.31%	D)	33.45%		
70.	The s India		nales per	1000 ma	les) in	Kerala	according to	2011 Cen	sus of		
	A)	1032	B)	1058		C)	1084	D)	1056		
			,			,		,			
71.		is a self employment scheme meant for uplifting the most backward and segregated women in Kerala belonging to ST community.									
		_	-	omen in		_	•	mmunity.			
	A)	SURAKSI			B)		ANYA				
	C)	SURABH	I		D)	SUK	ANYA				
72.			-		-		ording to 201	1 census	shows		
			disti	rict has th			•				
	A)	Palakkad			B)		ınamthitta				
	C)	Wayanad			D)	Idukl	K1				
73.	The a	uthor of the	book <i>Pro</i>	blems of	Capita		ation in UDC	$\mathbb{C}s.$			
	A)	Rosensteir	n Rodan		B)	Arthu	ır Lewis				
	C	Ricardo			D)	Ragn	er Nurkse				

74.	According to Hick's classification of technical progress, given constant capital output ratio, technical progress is said to be if it raises the marginal product of labour in greater proportion than marginal product of capital.								
	A) C)	Capital saving Neutral		B) D)		our saving e of the abov	ve		
75.		ding to Rostow, in whice society?		e grow	th beco	omes a norm	al conditio	n	
	A)	The pre take off stage		B)		take off stag			
	C)	Drive to Maturity		D)	The Age of High Mass Consumption				
76.	a stea	ding to Joan Robinson, dy rate of accumulation	of capi	ital tak	es plac	e below full	lemployme		
	A)	A Leaden Golden age A Restrained Golden		B)		stard Golde	_		
	C)	A Restrained Golden A	Age	D)	O) A Limping Golden Age				
77.	The Gender Empowerment Measure(GEM) was introduced by the Human Development Report of the year								
	A)	1995 B)	1990	ycai	C)	1985	D)	1975	
78.		ptimum population theo	-			-			
	A)	Thomas Robert Malth	us	B)	Dalto				
	C)	Edwin Cannan		D)	C.P.	Blacker			
79.	For any component of HDI, individual indices are calculated according to the formula								
	A) Actual value-Minimum Value/maximum value-minimum value								
	B)	<b>,</b>							
	C)								
	<ul><li>C) Actual value-maximum value/maximum value-minimum value</li><li>D) None of the above</li></ul>								
80.	'The problem of population is not of mere size but efficient production								
		juitable distribution' has	s been i		-				
	A)	Malthus		B)	Selig				
	C)	Smith		D)	Rica	rdo			
81.	Industrial Reserve Army denotes								
	A)	A wing of government industries	t which	inspe	cts qua	lity of produ	ucts introdu	aced in	
	B) The army reserved for the supply of industries								
	D)	<ul><li>The reserve raw materials kept by firms</li><li>The unemployed population due to the growth of constant capital.</li></ul>							
82.		etti model is an extensi	on of				istribution		
	A)	Kaldor model		B)		od model			
	C)	Joan Robinson model		D)	Solo	w model			

83.	If the capital-output ratio is 4 and targeted growth rate is 5%, the required level of savings is										
	A)	25%	B)	15%		C)	20%	D)	10%		
	11)	2370	D)	1570		C)	2070	D)	1070		
84.	Trage	edy of commons	s was fir	st descr	ibed in	his thes	sis by				
	A)	•			B)		nneth Arro	)W			
	C)				D)		t Hardin				
	,				,						
85.		metho	od gives	a minii	mum es	timate	of the ben	efits receive	d		
	from	the environmen	t protect	tion pro	gramm	e.					
	A)	Delphi metho	od								
	B)	Costless choice	ce metho	od							
	C)	Preventive ex	penditui	re meth	od						
	D)	None of the a	bove								
86.	Whic	Which of the following characteristic is widely regarded as being									
00.		portant aspect of	_			, .	arucu as o	omg			
	A)	• •			-		sing const	ımer exnend	iture

92.	A hor A) B) C) D)	t money or refugee capital is One which is transferred from one centre to another for greater safety Earned by refugees Deposited by refugees before taking refuge None of these							
93.	Matc	h the following:							
	a.	Adjustable peg system	1.	IMF fixed exchange rate system in which the exchange rate can be varied, if there is fundamental equilibrium.					
	b.	Crawling Peg system	2.	Changing the exchange rate little by little continuously to check speculation.					
	c.	The wider band	3.	Flexible movements within a definite range.					
	A)	a1, b2, c3	B)	a3, c2, b1					
	C)	a2, b3, c1	D)	a3, b1, c2					
94.	-	res that the sum of elasticities of	-	BoP, the Marshall Lerner condition and for imports and demand for exports					
	A)	Smaller than unity	B)	Greater than unity					
	C)	Equal to unity	D)	Equal to 0					
95.	Which of the following items is within the total of BoP?								
	A)	The merchandise balances	B)	The basic balance					
	C)	The current account balance	D)	All of these					
96.		The OLI paradigm (ownership advantages, locational considerations and international gains) as an explanation for FDI has been put forward by							
	A)	Emmanuel	B)	Dunning					
	C)	Kindle Berger	D)	Hymer					
97.	to	in BoP, while a con	-	ansionary monetary policy always leads nary monetary policy always leads to -					
		in the BoP.  Deterioration, improvement	D)	Improvement deterioration					
	A) C)	Deterioration, deterioration	/	1					
98.	The e	essence of is the	nat the	importing country negotiates with its					
	foreig			as on the amount of exports they will					
	A)	Voluntary Export Restraints	B)	Import Tariff					
	C)	Export tariff	D)	None of these					

99.	The neo Chamberlinian models of intra industry trade differ from neo Heksher Ohlin model in that the goods in question are							
	A)	Vertically differentiated	stion ai B)	'e Identical				
	C)	Horizontally differentiated	/					
	C)	Tionzontany differentiated	D)	None of these				
100.	good u of othe factor	ection increases, the endowment using the accumulating factor it er good will in absorptices are kept constant.	t of the ntensiv	other being constant, the output of the ely will and the output rms provided that commodity and				
	A)	*	B)	Increase,increase				
	<b>C</b> )	Decrease, decrease	D)	Decrease, increase				
101.	The of A) C)	_	B)	towards the axis which measures its Export commodity Non traded commodity				
102.		sing opportunity costs to production possibility c		re and more units of a commodity are				
	A)	Convex to the origin	B)	Concave to the origin				
	C)	•	D)	None of these				
	-,	2.4.4.8	- /					
103.		Sthe real income of the nation' Scarce factor to fall Abundant factor to rise Scarce and abundant factors to	S	that imposition of a tariff by a nation				
104.	Factor intensity Reversal refers to a situation where							
101.	A) The same commodity is more labour intensive in one nation than in the other							
	B) One commodity is the labour intensive commodity in one nation and the capital intensive commodity in the other nation.							
	C) Both commodities are more labour intensive in one nation than in the other nation.							
	D)	None of the above.						
105.		art of public finance which dea s of public borrowings.	ls with	the study of methods and				
	A)	Public expenditure	B)	Public debt				
	C)	Public revenue	D)	None of these				
106.	purpos		-	ment agency or business for the rehasing outstanding loans and				
	A)	Capital levy	B)	Surplus revenue				
	C)	Sinking fund	D)	Annuities				

107.		emand for a commodit n of taxation will be Fully on buyer Is equally shared by Fully on seller More burden on selle	buyer and	seller		d supply is i	nelastic, t	hen the		
108.	Acco	ding to Arthur Laffer,	when rate	of tax	k is 100	%, the tax re	evenue wi	ll be		
	A)	0 B)	25%		C)	50%	D)	100%		
109.	VAT is imposed									
	A)	Directly on consume	ers							
	B)									
	C)									
	D)	On all stages betwee	n production	on an	d final s	sale				
110.		h of the following has cial relation in India?	made reco	mmer	ndations	s in respect of	of centre-s	tate		
	A)	Sarkaria Commission	n E	3)	Kelka	Commissio	n			
	C)	Rekhi Committee	Γ	<b>)</b> )	Chelli	ah Committe	ee			
111.	In 2010, the Government of India earned maximum revenue from									
	A)	Excise duties		3)		ms duties				
	C)	Income tax	Γ	))	None	of these				
112.	Which of the following taxes is/are levied by the union and collected and appropriated by the state?									
	A)	Stamp duties	Е	3)	Passer	nger and goo	ds taxes			
	C)	Estate duties	Γ	<b>)</b> )	Taxes	on newspap	ers			
113.	The is	The issue authority of one rupee currency note is								
	A)	RBI	-	3)		Bank of India	a
