

# US TECHNOLOGY PAPER ON 12th OCTOBER AT BHOPAL

Hi Friends,  
i have attended the test.... i ll give the details which i know

1st - written test

2nd - GD

3rd - HR interview

ur idea in a calm way... they just see ur place in a team.. how u adjust in a team... they ll not select if u fight in the GD....

Be Cool and u ll clear it.....

8 in batch... out of that... 3 to 4 ll be selected...

In interview

ur confidence.. tats it.... there ll be not technical qs... one r 2 many be there.. but ur confidence is the main point there...

they need ppl with confidence.....

the interview qs ll be

about urself...

family..

all HR qs...

some times very basic technical...

qs from resume

the main thing is.. u have to clear the written... other rounds r very cool.... if u do not know any answer just have a guess... try to answer 15 Q in apti and 25 q in verbal... do not leave any qs.. just make a guess... luck also plays its role...

prepare well... concentrate and answer... all the very best
